

Who We Are

We engineer and manufacture innovative solutions for the oil, gas, and renewable energy sectors—combining decades of expertise with cutting-edge technology.

Our Mission

With a strong heritage and a forward-thinking approach, we deliver efficient, customized solutions tailored to your needs. Partner with EEFS and experience engineering excellence built for the future.

Project Expertise

Well Testing Packages

Early Production Facilities

ASME Fabrication

API Fabrication

Gas processing

Compression

Manufacturing Flow Control Equipment

Flared Gas To Energy

Decades Of Developing Our Craft

Equipment

We engineer and manufacture innovative solutions for oil, gas, and renewable energy sectors—proudly upholding our heritage of local excellence and global impact.

- **Completion Equipment**

Downhole Flow Control Equipment

Landing Nipples

Sliding Sleeve Door

Completion Packer

Anchor Catcher

Bridge Plug

Vent Valves & Wireline Tools

X - Overs

Vent Valves

Check Valves

- **Processing Equipment**

Three Phase Separator

Fuel Gas Skid

Inlet Manifolds

Indirect Heaters

Surge Vessels

Gas Conditioning Units

Sand Filters

Coolers

Transfer Pumps

Compressors

Well Test Packages 5K & 10K PSI

- **Artificial Lift**

Jet Pump Surface Packages

Downhole Jet Pump
